

MAREK Case Study

Top Drywall Company goes Paperless

Marek wanted to use the latest technology for time and attendance, eliminating paper timesheets on the Dallas Cowboys Stadium Project. Austin Lane Technologies, Inc. delivered with ALMobile software.

2,500,000
square feet of drywall

400,000
man hours

180
personnel at peak time

2.5
years to complete

ZERO
paper timesheets

Case Project Highlight

Dallas Cowboys Stadium's Stats

“ By utilizing Austin Lane Technologies' ALMobile, we have eliminated paper timesheets plus we know each day what our rates of productivity are along with our percent complete on the job. This allows Marek to get the job done on or ahead of schedule. ”

-Mark Keith, CIO, Marek
