

Top Track, Transit & Systems Company Deploys Across Two Countries

Railworks wanted to rollout a time collection solution across two countries, United States and Canada, and have everyone at every location manage time collection the exact same way. Thought to be impossible, Austin Lane Technologies, Inc. delivered with ALMobile software.

2,500 +
employees

6,000 +
pieces of equipment

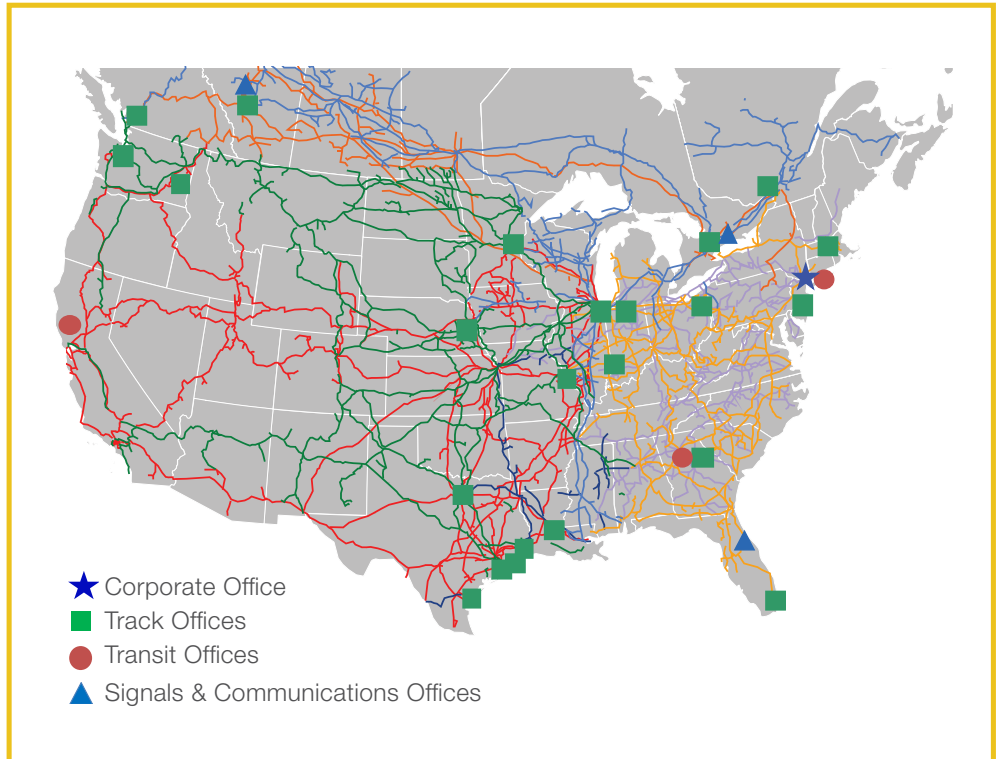

2,000
active jobs

30
offices / major project locations

1 SOLUTION
two countries

Case Project Highlight

RailWorks Company Stats

As far as Austin Lane is concerned, I can't think of a better business partner to have as we rolled this out across the entire United States and Canada.

-Tom Lealand, Director of Shared Services,
RailWorks Corporation

*Supporting HTML5 web browser technology
