Church Brothers Farms increased productivity 26% with Famous WMS Assign Loaders

KEY METRICS

- 
10x
Scans per hour
- 
26%
Productivity Increase
- 
6M
Return on Investment

OBJECTIVE
 Enable Church Brothers Farms to increase picking, loading and shipping efficiency to get product on the road faster.

SOLUTION
 The new Assign Loaders function in Famous Warehouse Management System auto assigns the next loader based on priority criterion, minimizing effort for forklift drivers and maximizing workforce efficiency.

FAMOUS WMS BENEFITS
Paperless Loading
 Loaders get automatically assigned their order all on the WMS devices, no need to print and manage tickets

Increase Order Accuracy
 More timely, accurate and reliable data

Improve Loading Times
 Get trucks in and out faster with efficient loading and increased speed to market

“
 WMS users have gone from around 6.5 to 7.4 SKUs scanned per hour since starting paperless in January, which is a huge increase in productivity. This means faster loading of trucks, decreased costs, and a cleaner warehouse with lower inventory.”

Vince Brigantino
 President of Church Brothers Farms
