

Float × Metalab

COMPANY [Metalab](#)

INDUSTRY [Software & IT services](#)

SIZE [150+](#)

The problem: Metalab were ‘sold the dream’ of a PSA that promised to do everything—but the system slowed them down and obscured the numbers that mattered most. Instead of gaining control, Metalab lost visibility: within weeks of implementing the enterprise tool, the resourcing team was back in spreadsheets trying to make sense of it all.

Float increased our resourcing efficiency by 50%. It gives us a lot of information when estimating. Margin’s a big one—Float gives us visibility much sooner if something is off.

Stephanie Ito
Chief Operating Officer
