

CASE STUDY

Special Olympics Maryland

Baltimore, MD

Challenge:

Special Olympics Maryland's budgeting process, heavily dependent on Excel, had become a bottleneck for efficient financial management. The manual workflows were labor-intensive, difficult to coordinate across departments, and prone to errors, leading the team to seek a solution that could enhance accuracy and save time.

The Martus Solution:

- Replaced time-consuming Excel-based processes with an intuitive budgeting platform, integrating directly with the General Ledger
- Individual, filterable worksheets enabled departments to budget by specific activities
- Improved forecasting and freed staff to focus on their mission

"Now our budget process is easier, takes less time, and even integrates with our GL seamlessly."

-Joanne Engler
VP of Finance

Results

- \$25k Annual Cost Savings
- 2x Faster decision-making
- 50% reduction in time spent on financial tasks

See how Martus helps organizations budget smarter and adapt faster.
