

The smarter way to do campus queuing and booking

Replace campus lineups with versatile virtual queues that connect students with the right services right away. **Ideal for high-volume one-stop centers.**

Centralize all campus services in one platform

From Financial Aid to Student Registration and Advising, configure queuing and booking across multiple locations, and manage everything efficiently in one place.

More students but less stress

Handle higher demand with automation, fewer errors, virtual service, and greater productivity.

Let students wait from anywhere

Let students join a virtual line by scanning a QR code, clicking a link on your website, or with a kiosk.

Your system, your rules

Unlock limitless configurability. Move fast, test with ease, and keep everything running on your terms.

Integrate appointments and walk-ins

Always know who's next, with appointments and walk-ins seamlessly integrated on one screen.

Give students control of their appointments

Online self-service means fewer calls, less admin, and more efficiency.

Communicate clearly with students

Send text and email reminders to students before and after service, with 2-way messaging for faster support.

Our end goal is to make sure **students are self-sufficient** and enable our staff to be more productive. WaitWell does that for us.
